

RAA Training offers the most user-friendly, cost-effective training solutions in the industry with the **How To Master Learning Management System (LMS)**. Our LMS is divided into five different packages so that you can have the system that meets your learning management needs and your budget needs at the same time. As your needs increase, your How To Master LMS can grow with you. The How To Master LMS takes your learning management experience further by helping your organization to:

- Save time and money** by automating administrative functions
- Increase employee productivity and effectiveness**
- Track training** progress and performance effectively and compare to organizational goals

**Administrator Advantages:**

- **View** student information
- Access **online, real-time reporting** on all students included in group
- Access online support documentation and context-sensitive help
- **Print or export** reports to a delimited text file

**Student Advantages:**

- Simple, **easy-to-use** interface
- Access training content from any computer with an Internet connection
- Enjoy **unlimited use** of all training purchased for duration of license
- **Searchable** content allows for training only on specific task in question
- Prepare for Certifications with **MOS, IC3, and A+** course material
- Record results and print **Certificates of Completion**

**We also offer the option for Corporate Branding the LMS using your own logo and color scheme!**
